Our Mission: To protect and improve the health and environment of all Kansans.

Performance Testing – SFY 2016

There were 165 performance tests conducted in Kansas.

- Of this total, 58 involved RICE testing.

There were 51 Relative Accuracy Test Audits conducted in Kansas.

Our Mission: To protect and improve the health and environment of all Kansans.

EPA State Review Framework

ACES underwent our EPA SRF audit in 2015.

EPA staff checked our records and performance based on a set series of metrics.

Proud to report that Kansas ACES scored highly and the audit was positive!

The next audit will be in five years.

Our Mission: To protect and improve the health and environment of all Kansans.

New BOA Database

The BOA is working with a software vendor to replace our existing database program, I-Steps, with a new system compliant with ICIS-Air.

Our Mission: To protect and improve the health and environment of all Kansans.

New BOA Database

The BOA is working with a software vendor to replace our existing database program, I-Steps, with a new system compliant with ICIS-Air.

- I-Steps is 20+ years old; based on outdated Oracle infrastructure

Our Mission: To protect and improve the health and environment of all Kansans.

New BOA Database

The BOA is working with a software vendor to replace our existing database program, I-Steps, with a new system compliant with ICIS-Air.

- I-Steps is 20+ years old; based on outdated Oracle infrastructure
- EPA retired AFS and replaced with ICIS-Air; I-Steps not compatible

Our Mission: To protect and improve the health and environment of all Kansans.

New BOA Database

The BOA is working with a software vendor to replace our existing database program, I-Steps, with a new system compliant with ICIS-Air.

- I-Steps is 20+ years old; based on outdated Oracle infrastructure
- EPA retired AFS and replaced with ICIS-Air; I-Steps not compatible
 - Results in double entry; loss of efficiency

New BOA Database

The BOA is working with a software vendor to replace our existing database program, I-Steps, with a new system compliant with ICIS-Air.

- I-Steps is 20+ years old; based on outdated Oracle infrastructure
- EPA retired AFS and replaced with ICIS-Air; I-Steps not compatible
 - Results in double entry; loss of efficiency
- New system will also consolidate six different Access/Excel databases

Our Mission: To protect and improve the health and environment of all Kansans.
